

Career Opportunity **Trainee Stockbrokers/Investment Managers** **Opportunities throughout the UK**

Charles Stanley can trace its origins back to a banking partnership in Sheffield in 1792. It became a member of the London Stock Exchange in 1852. Charles Stanley has grown to become one of the most respected UK firms in the field of private client stockbroking, investment management and financial planning, consistently winning industry praise for its high level of service. The firm prides itself on its strong commitment to its clients. Providing a 'Personal Investment Service' is very much the culture of the entire business and it is this commitment that makes Charles Stanley stand out from the rest of the investment community. For full details of the company's service offering and national office network, please visit the website at www.charles-stanley.co.uk

Opportunities now exist for talented sports professionals to join the business at a number of the firm's regional offices and to train towards qualification and subsequent success (and reward!) as a Private Client Stockbroker/Investment Manager.

The training programme will include a structured and comprehensive introduction to all facets of the business, whilst individuals will also be sponsored through an industry-leading professional qualification. It is expected that the full training and qualification process will take a period of up to 2.5 years to complete, although exceptional individuals will have the opportunity to progress more quickly than this.

The starting salaries for successful applicants will be in the region of £25,000. This will increase as qualifications and experience increase, but the objective is that every successful individual who goes through this process will have the potential to earn significant, 6-figure income packages following qualification.

Candidates must be already educated to degree level and must be able to demonstrate the strong entrepreneurial, interpersonal and communication skills which will be essential to establishing and developing relationships with clients and other professional advisers. They must also have a strong interest in the financial aspects of investment management, a keen analytical mind and a patient and diligent approach to client service.

 BAC Core Services

The British Athletes Commission **supporting the nation's elite athletes**

The British Athletes Commission (BAC) acts as the unified voice of all Olympic, Paralympic and World Class funded and TASS funded athletes. It communicates their views to the major decision makers within British sport, and promotes athlete representation within their sports. The BAC works to provide all athletes with a way to make their voices heard and a pathway to pursue and resolve any problems they encounter within their sport.

Should you require our support in any way then please visit our website, where you can log your request on our bespoke case management system.
